

2019 SUMMER STUDY INDUSTRY: PANEL 2

PEOPLE – Empowering individuals to envision the future

Panel Leaders: **Eric Mazzi**, *Mazzi Consulting* and **Darlene Schuster**, *AICHE*

Industrial energy efficiency programs depend on individuals to transform their organizations. As industries evolve and technology changes, the workforce must continue to adapt. This panel will feature ways to ensure workers are prepared for the next generation manufacturing. Topics include:

- Developing worker skills to save energy with smart manufacturing technologies
- Engaging the c-suite and supporting energy champions
- Increasing the impact of existing workforce development programs
- Case studies of successful private and public sector worker training programs
